

We greatly appreciate your time filling out this survey. Your answers will be used to enhance our Extension program planning. Please return to the Texas A&M AgriLife booth at the Amarillo Farm & Ranch Show, to your local County Extension Office, or to the District 1 Texas A&M AgriLife Extension office at 6500 W. Amarillo Blvd, Amarillo, Texas 79106.

2015 Texas High Plains Wheat Management Survey

1. In what county/counties do you produce wheat?
2. How many acres did you plant to wheat in 2015?
3. What variety/varieties did you plant for the 2015-2016 season?
4. How often do you purchase certified seed? (please circle the answer that applies)
 - a. Every year
 - b. Every 2 years
 - c. Every 3 years
 - d. I can't remember the last time I purchased certified seed
5. Do you commonly use a seed treatment? If so, which one(s)?
6. What is the purpose of planted acreage? (please circle all that apply)
 - a. Graze-out
 - b. Dual purpose
 - c. Grain only
 - d. Hay or Silage
 - e. Cover crop and terminated in the spring
7. When is your average planting date?
8. What is your average seeding rate?
9. What is your rotational practice; i.e. are you continuous wheat, corn-wheat, etc?
10. If you are in a continuous wheat system, do you control volunteer wheat? If you control volunteer wheat, do you spray or plow?
11. Is wheat under irrigated or dryland production?
12. If irrigated, how do you schedule your irrigation? (please circle the answer that applies)
 - a. Using soil moisture sensors such as Aquaspy
 - b. When the crop visually looks stressed
 - c. At critical growth stages
13. When do you decide to terminate irrigation?

We greatly appreciate your time filling out this survey. Your answers will be used to enhance our Extension program planning. Please return to the Texas A&M AgriLife booth at the Amarillo Farm & Ranch Show, to your local County Extension Office, or to the District 1 Texas A&M AgriLife Extension office at 6500 W. Amarillo Blvd, Amarillo, Texas 79106.

14. What is your tillage system?
15. What are the most troublesome weeds in your wheat production?
16. Which herbicides do you commonly use, and what is your application rate?
17. Did you use fungicides in the spring of 2015 in response to heavy stripe rust pressure? If so, what fungicide did you use, and when did you apply?
18. Do you plan to consider fungicides in the spring of 2016?
19. Do you consider disease resistance when selecting a wheat variety?
20. Do you use plant growth regulators to minimize lodging in wheat?
21. How often do you soil sample? (please circle the answer that applies)
 - a. Every year
 - b. Every 2-3 years
 - c. Every 3-6 years
 - d. More than 6 years
22. Do you fertilize in the fall?
YES or NO
23. If Yes, do you apply fall fertilizers pre-plant or at planting?
24. What is your nitrogen source?
25. Do you apply a phosphorus fertilizer?
26. Do you plan to topdress in the spring?
27. What are the common insect problems you experience?
28. Do you apply pesticides?
