One-Day Grain Grading Workshop for corn, sorghum & wheat handlers & producers

To help grain handlers recognize features that affect its grade, Texas A&M AgriLife Extension Service will hold two one-day workshops at the Texas A&M AgriLife Research and Extension Center in Amarillo. A workshop is offered on August 1 and repeated on August 2 and runs from 9:00am until 4:30pm. Participants will learn the importance of grading grain, become familiar with grain grading standards, develop proper sampling techniques, and identify different types of damage that occur and their potential impacts on grade and feeding value. Participants work hands-on with grain samples to enhance the learning experience.

Registration is open to anyone interested in grain grading.

Workshop cost is \$100.00 per participant and includes lunch. Pre-registration is required since registration is limited to 55 people per day.

For more information, contact:
